DBGI Announces an Increase of 46.5% for Preliminary Revenue Results for First Quarter Fiscal 2023

AUSTIN, Texas, May 4, 2023 /PRNewswire/ -- Digital Brands Group, Inc. ("DBGI") (NASDAQ: DBGI), a curated collection of luxury lifestyle, digital-first brands, today announced that it expects first quarter fiscal 2023 revenues to be approximately \$5.0 million, an increase of 46.5%.

Hil Davis, Chief Executive Officer of Digital Brands Group, stated that "Our 2023 first quarter reflected the strategic decision to lower advertising spend as we onboarded a performance marketing agency, which resulted in two months of significantly lower e-commerce revenues. However, since the performance marketing began, we have seen our monthly e-commerce revenue double from January levels. The increase in our e-commerce revenues associated with the new performance marketing agency will be even more fully reflected in our second quarter revenues, but we are pleased that we are already seeing a meaningful change in our e-commerce results since the agency began."

Davis continued, "Our first quarter results will also include the results of our Sundry acquisition. As we stated on our State of the Union and fourth quarter earnings call, we will see significant leverage on our fixed operating costs, as well as a clear path to free cash flow and profitability in the third quarter."

About Digital Brands Group

We offer a wide variety of apparel through numerous brands on a both direct-to-consumer and wholesale basis. We have created a business model derived from our founding as a digitally native-first vertical brand. Digital native first brands are brands founded as e-commerce driven businesses, where online sales constitute a meaningful percentage of net sales, although they often subsequently also expand into wholesale or direct retail channels. Unlike typical e-commerce brands, as a digitally native vertical brand we control our own distribution, sourcing products directly from our third-party manufacturers and selling directly to the end consumer. We focus on owning the customer's "closet share" by leveraging their data and purchase history to create personalized targeted content and looks for that specific customer cohort. We have strategically expanded into an omnichannel brand offering these styles and content not only on-line but at selected wholesale and retail storefronts. We believe this approach allows us opportunities to successfully drive Lifetime Value ("LTV") while increasing new customer growth.
